May 2017 Vol 1 Issue 5

## 7 INDUSTRIAL CHIC

[marcicucine.it](http://marcicucine.it)

An absolutely lived-in look with the hallmark Italian details make Brera 76 instantly stand out. With its contrasting materials – solid wood blending with metal frames – it creates an industrial vibe.

Materials like cement, slate and tiles allow you to customise the look. The metal and wood shelves over the kitchen island allow access to things from both sides while the sliding doors keep things in their place. For a creative person, no amount of space is enough in a kitchen. So these new shelving ideas are immensely useful. The counter extends into a casual dining table. Go for this look and stay au courant.

## 8 LUSTROUS AND LINEAR

[dipengada.com](http://dipengada.com)

This pristine white kitchen impresses with its clean lines and uncluttered look. 'The idea was to create a neat and functional design to make kitchen as open and clutter-free as possible. We were also particular about creating enough ventilation to support Indian cooking. So the focus was to use minimum materials. We went for inbuilt gadgets, fridge, silent chimney, modular soft closing drawers. The island counter top is Corian. The platform counter is granite,' says Dipen Gada of Dipen Gada & Associates. The lustrous backsplash in nano white composite marble and the gorgeous Italian marble flooring add to the glossy feel.
