Concept 1 Gym, Vadodara

Battling multiple challenges like numerous beams and columns, restricted floor height and a conventional industry standard, Dipen Gada & Associates designed the Concept 1 Gym in Vadodara as an amalgamation of art and rigorous discipline. Following a rustic theme, the gym has raw, exposed surfaces that lend a soothing element to the active environment inside. A bold red is splashed on the ceiling to break the impact of the height, whereas a diverse flooring palette comprising vitrified matte-finished tiles, wooden vinyl flooring and rubber flooring dot the various sections depending on their use. Positioned in the east-west direction, the gym's front façade receives ample sunlight, which is adequately exploited using alternating full glass windows and customised metal grills.

Fact File

City Vadodara, Gujarat
Built-up area 5,500sqft
Year of completion 2016

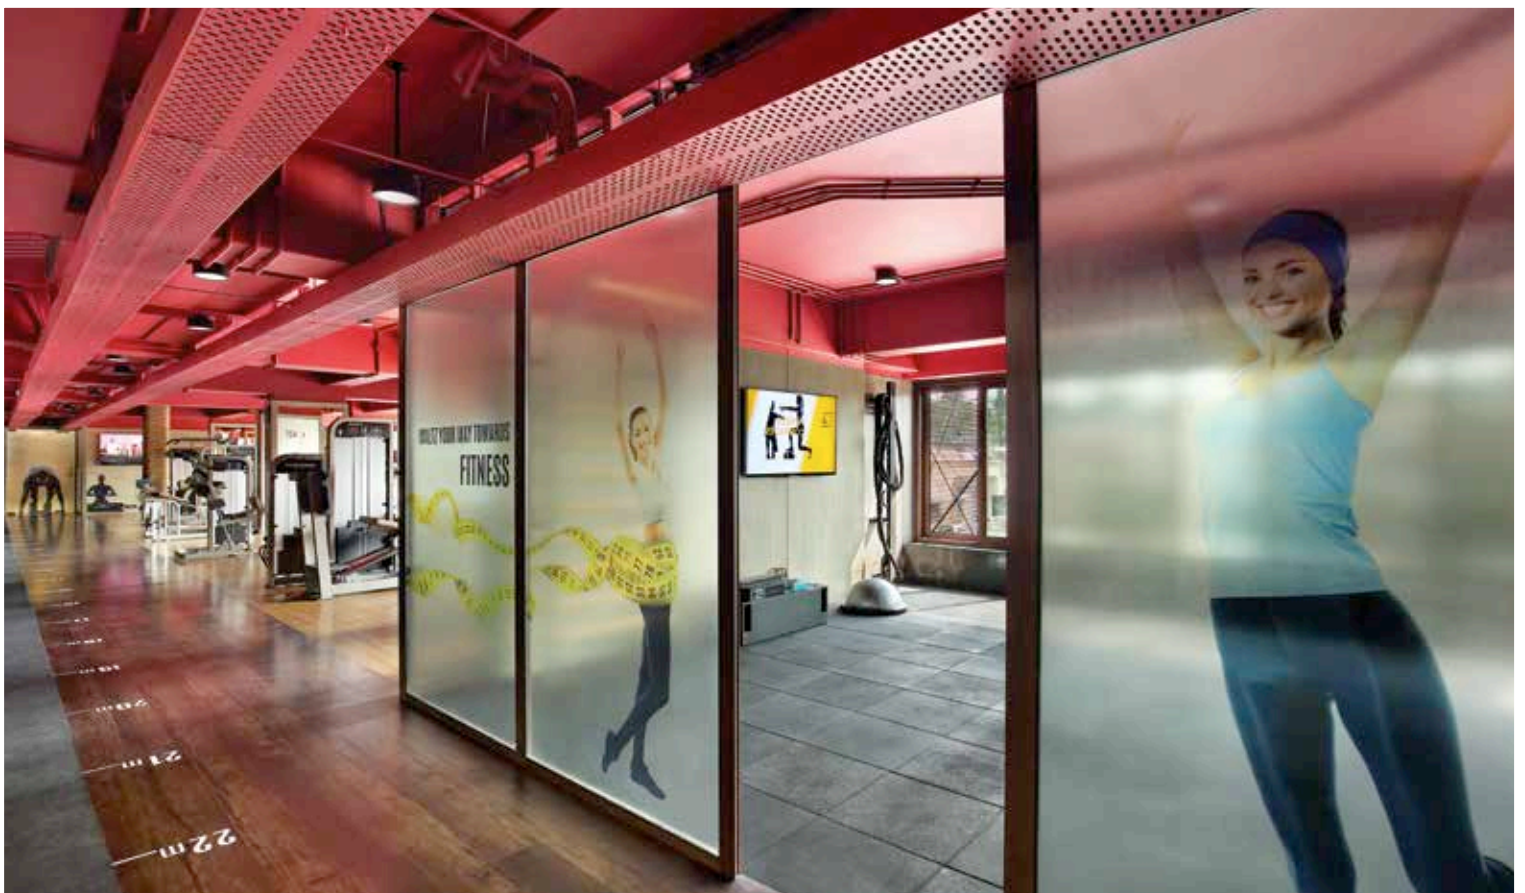

Dipen Gada & Associates

About the Firm

Creating spaces that are recognised for innovation, experience, architectural expressions and timeless designs, Dipen Gada & Associates (DGA) follows the philosophy of classic minimalism. Since its inception in 1993, DGA is constantly aiming to explore the uncharted, unconventional territories of architecture.

With an understanding that design celebrates the essence of being human, DGA has evolved from an exclusive interior design firm to a civil and architectural planning firm that pays close attention to climate, context, use of design fundamentals and appropriate use of materials.
